

SPONSORSHIP PORTFOLIO

Offroad Vehicle
2025-2026 Season

Project Presentation

Baja SAE is the longest-running international student engineering competition organized by SAE (Society of Automotive Engineers). Each year, hundreds of teams worldwide take on the challenge of designing and building a single-seat off-road vehicle. The prototype must be safe, reliable, easy to maintain, and fun to drive. A key challenge is achieving maximum performance with an engine limited to just 10 HP. Students must accomplish all this within a short timeframe and under a strict budget, a true test of innovation, teamwork, and engineering excellence.

Team Philosophy

The Baja ÉTS team is proud and persevering. Since 1989, the team has earned awards and distinctions every competition season, and has won the prestigious Mike Schmidt Iron Team Award three times (2005, 2010, and 2024). The experience and passion of its members are passed down year after year. Focused on overall performance, the ÉTS vehicle is among the most advanced and complete in the competition. Innovation in design, harmony between systems, and precision in manufacturing are the guiding principles. The vehicle is entirely designed, built, and assembled by ÉTS students.

Challenges

- Voluntary involvement without academic credits
- Multidisciplinary teamwork
- Complex, hands-on projects
- Balancing studies and team commitments
- Defining performance objectives
- Developing the preliminary concept
- Modeling a complete vehicle
- Simulating and testing various components
- Manufacturing and finishing parts
- Assembling components
- Testing and fine-tuning the vehicle

COMPETITION FORMAT

2026 Season

Each year, Baja ÉTS takes part in three international competitions, facing teams from all around the world.

2026 Calendar

Baja West	Baja East	Baja Fall
Location: Washougal, Washington	Location: Rochester, New York	Location: Nashport, Ohio
Date : May 7 th to 10 th 2026	Date : June 11 th to 15 th 2026	Date : Sept 24 th to 27 th 2026

Competition Events

Over four days of intense static and dynamic events, the competition pushes both the team of future engineers and their vehicle to the limit. Each event brings unique and demanding challenges, ending with the legendary four-hour endurance race, where nearly a hundred vehicles compete head-to-head on the same track.

Static Events

Design Presentation
Business Presentation
Cost Reduction

Dynamic Events

Endurance
Acceleration
Manoeuvrability
Hill Climb
Sled Pull
Suspension & Traction

COMPETITION RESULTS

3rd Overall for the 2025 season

BAJA SAE Arizona

May 1-4 2025

Marana, Arizona

2nd Overall

Static Events:

Business: 4th
Design: 6th
Cost: 3rd

Dynamic Events:

Acceleration: 1st
Manœuvrability: 10th
Suspension: 3rd
Sled Pull: 7th

Endurance: 5th

BAJA SAE Maryland

June 12-15 2025

Mechanicsville, Maryland

5th Overall

Static Events:

Business: 1st
Design: 3rd
Cost: 2nd

Dynamic Events:

Acceleration: 1st
Manœuvrability: 4th
Suspension: 4th
Hill Climb: 49th

Endurance: 6th

BAJA SAE Carolina

October 2-5 2025

Gray Court, South-Carolina

3rd Overall

Static Events:

Business: 4th
Design: 6th
Cost: 1st

Dynamic Events:

Acceleration: 1st
Manœuvrability: 9th
Suspension: 4th
Hill Climb: 2nd

Endurance: 3rd

Thanks to its strong results in the 2025 season, Baja ÉTS earned 3rd place for the prestigious **Mike Schmidt Memorial Iron Team Award**. This honor is awarded to the team with the highest cumulative score across all three competitions, a true mark of consistency and excellence.

TESTIMONIALS FROM OUR SPONSORS

"GMP Friction Products is proud to have sponsored the Baja ÉTS team and to see the impressive results of their design. Many of our employees once competed in SAE events themselves, so we know firsthand how valuable it is for engineering students to gain real-world, hands-on experience in product design and development.

Not long ago, we were the students reaching out to companies like GMP for support. Today, seeing Baja ÉTS excel in competition, we are thrilled to have played a part in their success."*

American Hakko Products, Inc.

"For more than 60 years, Hakko has been a leader in industrial manufacturing, recognized worldwide for quality, reliability, and performance through our superior soldering and rework tools. We believe the best way to build a brighter future for the next generation is by starting with the customer experience and our 'Hakko Donates' program. Through this initiative, we are proud to give back to our community and inspire the engineers of tomorrow."

2026 Team Roster

Samuel Lavigne-Cloutier

Team Co-captain

- Aerodynamics
- Welding

Antoine Proulx

Team Co-captain

- Project Management
- Welding

Charles Grenier

Technical Director

- CVT
- Machining

Léo Bazinet

- Suspension
- Machining

Pierre-Alexis Lachance

- Clutch
- Machining

Élie Bazinet

Treasurer

- Chassis
- Welding

Annabelle Gagnon

- Wheel Assemblies
- Media

Mika Loiselle

- Brakes
- Machining

Maxence Lafond

Electronics and I.T. Lead

- Programming
- Data Acquisition

Aymerick Bellon

- Ergonomics
- Composites

Danick Rouillier

- Steering
- Machining

Justin Desbois

- Powertrain
- Machining

Jacob Dôme

- Driveline
- Machining

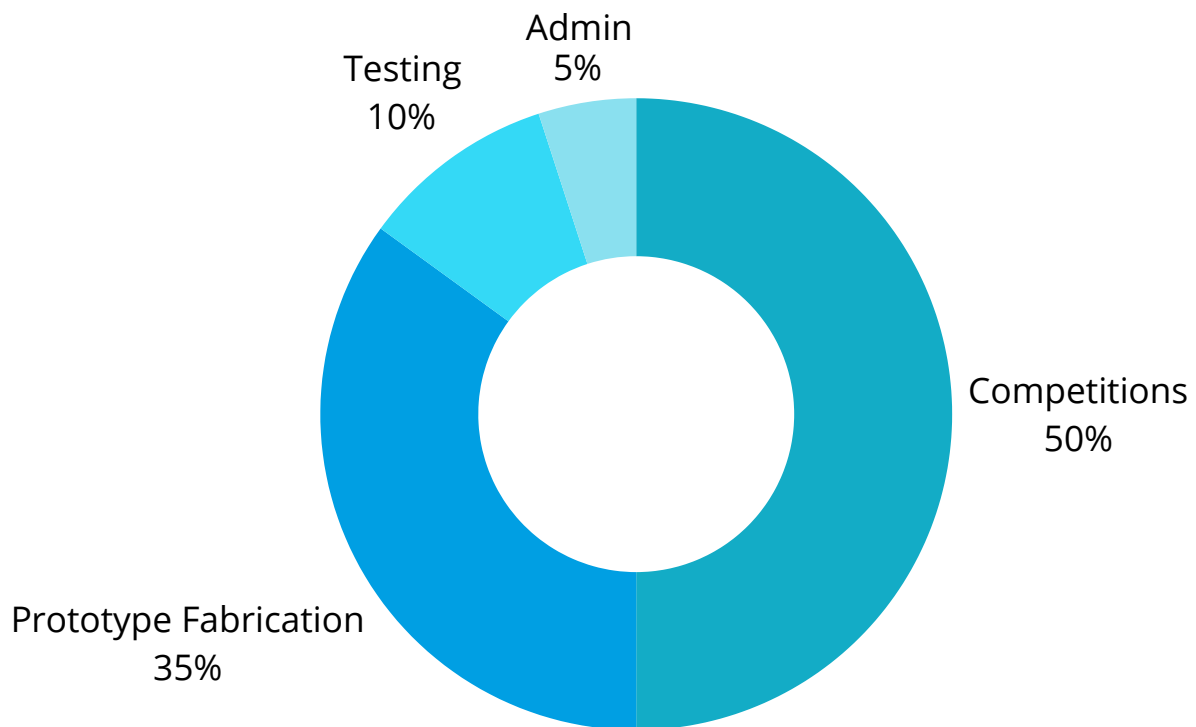

Samuel Leblanc

- Reduction box
- Machining

SEASON BUDGET

Most financial contributions go directly toward competition expenses, including accommodations, transportation, and registration fees. Building the vehicle also requires significant investment in materials, hardware, tools, and other essentials. **Thanks to the support of our partners, we are able to bring this project to life year after year.**

SPONSORSHIP BENEFITS

Our sponsors are at the heart of our success. To thank you for your support, we provide unique opportunities to showcase your brand, connect with our team, and share in the excitement of Baja ÉTS' projects.

Engagement Level[†]

Bronze	Silver	Gold	Platinum
(250\$ to 1500\$)	(1500\$ to 4000\$)	(4000\$ to 10 000\$)	(over 10 000\$)

Online Visibility
